

ClearTouch[®]

FOBio

BLE Clicker FOB for Connect Device Login

BLUETOOTH LOW ENERGY

This small device uses Bluetooth Low Energy (BLE) Technology so that it can last a long time and live on a device that you can take anywhere with you.

USER ID ENCRYPTION

The FOBio data is encrypted and transmits on an isolated channel so your user data remains safe and secure.

EASY USER ACCESS

Access to your panel is just a click away. Your FOBio will login to the panel as well as unlock it from sleep mode. This provides easy access to your profile and to all your Chorus teaching tools.

INTEGRATES WITH CONNECT SOFTWARE

Connect Admins can easily assign a FOBio to any user in the Connect Web interface. It's as simple as assigning the MAC address of the FOBio
